In the Cool of the Day - English lyrics

In the Cool of the day

when love is warm

we better be wise

for jealous eyes

are all around us

But the cool of the night

is right for 2

no fool in the night

can keep our dream from coming true

The Cool of the day

can turn to rain

and the lightening

can be frightening

when we are lonely

but the cool of the night

is bright and sweet

no fool in the night

with little love will disagree

Someday we 'll find

a far far land

where lovers kiss

and everyone will understand

In the cool of the day

I'll hold you there

and never a moment

I will leave you feeling lonely

no longer the light will run away

I'll have the right to love you

in the cool of the day

In the cool of the day

I'll hold you there

and never a moment

I will leave you feeling lonely

no longer the light will run away

I'll have the right to love you

in the cool of the day
